Recognise and classify familiar two-dimensional shapes and three-dimensional objects using geometric features such as 'corners', 'edges' and 'faces'.

Processes of Counting

Learning the rules for Base Ten.

English

Writing

Writers Workshop- Narratives

Word Study

Tailored spelling groups with a focus on sounds.

Reading

Developing concepts of print, Guided reading where we develop reading strategies in small groups.

D·E·A·R

From 8:40- 9:00 we participate in D·E·A·R (Drop Everything and Read). Parents and caregivers are welcome to read with children during this time.

Outdoor Learning

Gardening in our veggie patch.

Managing and maintaining our JP area.

Child Protection Curriculum

Relationships, Relationship skills, Social Awareness

Play for Learning

This term we will be developing our very own Farmers Market in our shared space. Children will be encouraged to help set up this play space and later take engage in some role play. They will have the opportunity to take on different roles such as market seller, farmer and shopper.

Promoting Healthy Eating

Through our Play for Learning and Outdoor Learning, an underlying focus will be 'Healthy Eating'. We will look at healthy food options and why it is important to eat healthy.

*Students will now have the option to eat a healthy snack during our morning block before recess at a time of their choosing.

STEM/ HASS

Inquiry Topic: Now and Then

This term our inquiry topic will focus on our history. How things were and how are now. The specifics of this project will be driven by your children. What they wonder, what they wish to explore and what they hope to find out. This topic will be ongoing and will be integrated into other areas of our curriculum learning.

Health & Physical Education

Team building games with a focus on developing fair playing behaviours, self confidence, encouragement of others, safety and the importance of physical exercise.
