

Dance

The Arts Term 4 overview with Mrs Palmer

Junior Primary

In Dance this term students will be involved in exploring and improvising dance ideas and sharing these with each other.

- Begin to develop technical skills of body control, strength, balance and coordination
- Developing awareness of and taking responsibility for safe dance practice

Middle Primary

In Dance this term the focus is on students exploring the elements of dance; space, time, dynamics and relationships. Students will collaborate in small groups to choreograph a dance to their chosen piece of music.

- The skills we will be working on are communication, use of body movements to display elements of dance

Students present and share their dance with audiences.

Upper Primary

In Dance this term students are developing the elements of dance; space, time, dynamics and relationships. Students will choreograph a short dance from a chosen genre, to their chosen piece of music.

- Students will develop communication and collaboration skills
- Students will research and devise a variety of movement possibilities for their chosen genre

Students will film and present their dance to an audience.
